## Alerts and recommendations

The screenshot displays the FrailSafe dashboard interface. At the top, a teal header shows the user ID '2102' and navigation tabs: OVERVIEW, CLINICAL, PHYSIOLOGICAL, BEHAVIOURAL, GAMES, and INTERVENTIONS. The 'INTERVENTIONS' tab is active. A 'Print Recommendations' button is visible in the top right of the main content area.

The 'Recommendations' section contains several text-based alerts:

- Physical Activity:** According to your statements, your physical activity per week is within the normal range. Make sure to maintain your activity levels by engaging in regular exercise (i.e., swimming, group exercise or going for a walk every day) and taking necessary safety precautions according to your capacity and after consulting your doctor.
- Hearing Difficulties:** According to your reports you experience some hearing difficulties. Please, consider visiting your doctor to prescribe the most appropriate correction solution or aid according to your judgements. It is suggested that you undertake regular examinations to address any change in your acuity early on. Do not hesitate to report any noticed differences to your doctor.
- Balance Test:** Your performance on a balance test was different than expected which could be attributed to health-related factors but could also be due to other factors. Please, visit your GP for further examination according to your judgement, especially, if you notice any differences in your balance or gait movements.
- Diet and Exercise:** Maintenance of a healthy diet with adequate protein intake and engagement in regular physical exercise taking all necessary safety precautions is encouraged.

The 'Alerts' section is partially visible, showing a 'MARK ALL AS READ' button and a list of alerts:

- Too low Montreal Cognitive Assessment (MoCA) test score  
Value: 24.0 at 22-03-2019
- This is a test description .  
Value: True at 22-03-2019
- Too low Montreal Cognitive Assessment (MoCA) test score  
Value: 25.0 at 05-03-2019

The dashboard also includes a 'RESET FILTERS' button and the 'frail safe' logo in the bottom right corner.
